

POLICY FOR EMPLOYEES, SUPPLIERS & SUPPLIERS SUPPLIERS

 **WE ACT SUSTAINABLY**

We sort waste, sorting makes sense. We pass the waste only to authorised persons or to designated places.

We print only what is absolutely necessary, thus saving our forests and reducing energy consumption and the amount of waste – paper, toners, electrical equipment.

 **SAFETY FIRST**

We use chemicals in accordance with the instructions on the label and the safety data sheet. We avoid using chemicals harmful to health and nature.

We do not pour out oils, concentrated chemicals or other harmful substances into the sewage system.

 **WE ARE PRACTICAL**

When pumping fuel, we try to prevent dripping. We only tank high-quality fuel in a certified network of petrol stations.

Vehicle servicing and maintenance is done by expert service companies.

SKŘIVÁNEK

Because our Company has introduced an environmental management system according to ISO 14001, we would like to ask you to become familiar with the following principles and to comply with them.

WE THANK YOU FOR OBSERVING THE FOLLOWING POINTS WITH US:

 **WE ARE WASTE CONSCIOUS**

We do not waste natural resources, thus saving energy, water and gas.

When purchasing new appliances and cars we take into account their consumption and energy intensity.

 **WE ACT SUSTAINABLY**

In the event of an accident or the risk of environmental damage, we strive to respond as quickly as possible to minimise the extent and impact.

We pass electrical equipment and batteries to the places where they can be disposed of ecologically.
